440 Church

CENTER OF ENERGY

Brand new 440 South Church is more than a 15-story glass and steel office building with high creative wattage. It anchors a "power corner," on a block that's rising as the most exciting new area of Center City. This bold new office building will be functionally integrated into a mixed use block of residential, retail and a hotel. You can live and work in the same location, shop, and offer out-of-town clients comfortable convenience. Your neighbors also include the Wachovia Cultural Campus with two museums and a performing arts center, Bank of America Stadium, a triple A ballpark, plus a grand city park. Call us or visit [440 SouthChurch.com](http://440SouthChurch.com), and see how we're generating some new electricity in Uptown Charlotte.
